EU FUNDING

AI4Citizens is a groundbreaking European initiative exploring the opportunities and challenges of AI adoption in the public sector.

"Our mission is to help people better understand and use AI, enhancing existing services and driving the development of a more predictive society.

Project Partners

City of Tampere (FI)

Amsterdam Municipality (NL)
Bacau County Council (RO)
Bucharest-Ilfov Regional
Development Agency (RO)
City of Helsinki (FI)
Piemonte Innova (IT)
Riga Local Government Riga Digital
Agency (RDA) (LV)

We aim to build AI capabilities within city processes and equip citizens with the skills needed to actively contribute to the future of services. Through this, we can foster continuous learning and innovation, ensuring that AI benefits everyone."
